Asif Sarangi

FRACTIONAL CTO · AI ADVISER · NON-EXECUTIVE DIRECTOR

"Private technology leadership for founders, investors and family offices — explaining complex technology in plain English."

AVAILABLE FOR SAME-DAY TV, RADIO & PRESS COMMENT

BIOGRAPHY

Asif Sarangi is a Fractional CTO, AI adviser and non-executive director with over 20 years in technology. He is the founder of SAR Computing and NXAPP Ltd — whose mobile apps include Centrokey, NXSentry and NXShield (for government) — and advises founders, family offices and high-net-worth clients on adopting technology, and AI in particular, safely.

He explains complex technology stories in plain English, on deadline. He was named Best CEO Under 40 (Europe, 2025), and his consultancy was named Most Innovative IT Consultancy — London (2025) by AI Global. He works across London, Paris, Monaco and Dubai, and is available globally.

CAN SPEAK ON

- AI security — the risks businesses miss when adopting AI
- Cyber attacks, data breaches and what they mean in practice
- AI regulation and standards (UK, EU and Gulf)
- Small business and agency technology
- Technology investment for family offices
